SUMMARY

Passionate third-year Software Engineering student with extensive hands-on experience across diverse tech stacks, including front-end and back-end development. Renowned for my quick learning ability and adaptability in fast-paced environments, I have successfully designed and led multiple university project teams, demonstrating strong leadership, teamwork, and problem-solving skills. Proficient in modern development tools and practices, such as Agile methodologies and version control systems. Highly interested in industry practices and eager to further enhance my technical expertise and contribute to cutting-edge software development projects, driving innovation and delivering high-quality solutions

TECHNICAL SKILLS

Languages: Java, Typescript, SQL

Frameworks: Express.js, Tailwind CSS, Next.js

Developer Tools: Git

Libraries: React.js, Redux.js

PROJECTS

Vintage Item Auction Management System | MERN Stack

Apr 2024 – May 2024

- Led an 8-member team to develop an online auction platform
- Designed user interfaces and implemented portals for admin role
- Built backed for user management, auction automation, and secure payments
- Managed databases for user accounts, listings, bids, and transactions
- Followed Agile methodology for iterative development and feedback
- Conducted testing and deployment to ensure performance and security

Job Applicant Management System | MERN Stack

Feb 2024 – Mar 2024

- Developed a comprehensive job applicant platform as a personal project
- Designed user interfaces and implemented portals for admin and employer roles
- Built backend for user management, job postings, and application tracking
- Managed databases for user accounts, job listings, applications, and transactions

Online Event Management System | Java, JSP, Servlet, MySQL, MVC Architecture

Aug 2023 – Oct 2023

- Developed a comprehensive event management platform as part of a 4-person team, achieving an A pass
- Implemented the admin portal with full system capabilities, including user management and analytics
- Utilized MVC architecture and OOP principles for a scalable and maintainable codebase
- Led the team in project management, ensuring timely delivery and cohesive integration of components

EDUCATION

Sri Lanka Institute of Information Technology

Malabe, Sri Lanka

Bachelor of Science in Information Technology Specializing in Software Engineering (CGPA:3.54)

2022 – Present

Thurstan College

Colombo 07, Sri Lanka

G.C.E Advanced Level (Physical Sciences)

2011 – 2020

CERTIFICATIONS

Postman API Fundamentals Student Expert - Postman

Issued Jun 2024
